What's New in the?

Swing or be on the wrong side of the law! Unlock your PC from anyone who doesn't know who you are and have access to your files, money, identity and other sensitive information by combining a password, biometrics and Windows personal identification number! You can find a huge list of "making friends" apps that can be download from the website below. How do I check if I am using anti-malware software? 1. Click on Start to open the Start Menu 2. Click on Computer to open the Computer window 3. In the upper right hand corner of the Computer window you will see a small triangle with a wrench in it. Click the triangle and select "Properties" 4. In the window that appears select the "Security" tab 5. If the box in front of "Not a product of AVG" is checked you are not using anti-malware software. Click on the Change button. 6. You must then select either: "Windows Defender Smart Security Free" or "Windows Smart Security" 7. Click on OK. 8. The screen may also read "Anti-malware Not Installed" If so you will have to download it. If the above method does not work for some reason, you can also try typing in the following into the search bar: Search related questions: What happens when I turn off Windows firewall Windows 7/8/8.1/10/Pro will automatically lock down local network traffic. You cannot reach the outside world via the Internet by visiting a web site. Windows firewall by default blocks local network traffic in order to prevent you from taking a surprise on the outside world. The software will completely disable all protocols (outgoing or incoming) that are not secured by SSL/TLS. How do I turn off Windows firewall 1. Click on Start to open the Start Menu 2. Click on Computer to open the Computer window 3. In the upper right hand corner of the Computer window you will see a small triangle with a wrench in it. Click the triangle and select "Properties" 4. In the window that appears select the "Security" tab 5. Tick the box in front of "Turn off Windows Firewall" to remove all Windows Firewall settings. Click on OK. 6. The screen may also read "Anti-malware Not Installed" If so you will
